From the past...

“We have an opportunity to start something new and great here.”

Dr. John S. Allen, President

Art & Research + Chemistry

Dr. Adrian Villalta-Cerdas, Associate Professor of Chemistry, says “... research in chemistry is a very important part of our lives. It helps us understand the world around us and find new ways to solve problems. I am proud to be part of the chemistry department at USF and to work with such talented students and colleagues. We are always looking for new ways to expand our research and make a positive impact on the world.”
