Academic Structure Mapping Guidelines

The following set of guidelines has helped inform our draft recommendations on USF's academic structure and organization.

- 1. Florida Excellence in Higher Education Act of 2018
- 2. USF BOT's approved Guiding Principles for USF Consolidation (2018)
- 3. Regional and programmatic accreditation "one college only" (SACSCOC guidance, 2018)
- 4. Strengthening USF's position as a Preeminent State Research University and advancing toward AAU membership eligibility through developing the research capacity of each campus
- Providing students access to, and success in, a broader array of integrated degree programs by discipline, level, mode of delivery, and location (hosted)
- 6. Meeting the local workforce needs of the communities we serve
- Maintaining the unique identity and establishing distinctive anchor (home) programs on each of USF's campuses
- 8. Aligning colleges by academic discipline across one university
- 9. Establishing realistic and manageable-sized college units
- 10. Eliminating the need for duplication of expensive infrastructure

The intention is to increase student access to programs, align programs with campuses in a strategic fashion, and increase efficiencies across the university. To inform decision-making at USF, we have looked at comparable public institutions from among the SUS, the AAU membership and other systems whose consolidations Huron has supported.
