

Dr. Moloney is a first-year doctoral student in the Department of Mechanical Engineering, where he was awarded a Leland Energy Fellowship (MLEF) while working on the Hyper project (Fuel cell and hydrogen power system) at the National Energy Technology Laboratory (NETL) in Morgantown, West Virginia. Dr. Moloney's research experiences aligned with the mission of the Department of Energy's (DOE) Office of Fossil Energy in strengthening a diverse pipeline of future STEM professionals. For his dissertation research, Moloney is advised by Dr. Yogi Goswami, a distinguished professor in the Department of Chemical and Bioengineering and a director of the Energy Research Center (CERC).

Dr. Garcia is a first-year doctoral student in the Department of Electrical Engineering, where he was selected to participate in the Georgia Louis Alliance for Minority Participation (GLAMP) program. He is currently a member of the Phi Kappa Phi Honor Society and the Eta Chapter of the Eta Chapter of the Phi Kappa Phi Honor Society.
