

**STANDARD OPERATING PROCEDURES**  
DIVISION OF COMPARATIVE MEDICINE  
UNIVERSITY OF SOUTH FLORIDA

SOP# 418.4

**IV. ANESTHESIA AND ANALGESIA**

1. General anesthesia is provided using a suitable inhalant anesthetic agent (e.g., isoflurane) with appropriate scavenging of the waste anesthetic gas.
2. Analgesia is provided using a suitable systemic anesthetic agent (e.g., carprofen, 5-10 mg/kg SQ).
